Topics to be Discussed , Bureau of Budget Hearings, 20 Oct. 1953, SECRET,
in 1955 B of B Submission Material in Records Center Job 58-436

8. Discuss "agency cable service" in DCI office and increased cost
in 1954 (A-1-2)

A. The Cable Secretariat was formed 1 August 1952 by transferring to it
the Processing Branch of Signal Center and adding an executive staff

[redacted] The executive staff processes the
traffic for the Office of the Director, prepares all agency regulatory
issuances on cable matters, provides a Duty Officer service to the CS
and handles personnel administration for the Cable Secretariat.

On 1 Aug. 1952 only [redacted] slots were filled; on 15 Oct. 1953,

[redacted] slots are filled.

The Cable Secretariat operates on a 24-hr day, 7-day week schedule.
About [redacted] cables are processed per day, about [redacted] of which are briefed
and receive other special processing for the Office of the Director.
Cable processing includes; screening for special interests, assigning
and reviewing distribution, typing and proof-reading, reproducing and
delivering, and post-screening to assure compliance with agency procedures.

Because of the sensitive nature of much of the traffic, a special section
must be maintained for processing sensitive traffic. This ~~section~~ section
duplicates on a similar scale the activities of the non-sensitive section.
